

# COVID-19 resources

**COVID-19 related resources to help support people with a learning disability and/or autism and those supporting them.**

Please use this document in conjunction with the framework 'Supporting individuals with face coverings and other COVID-19 related challenges'

**Please note:** Listed below are links from various sources. We are unable to guarantee the accuracy / content of these documents. Also due to the changing nature of COVID-19 some information may go out of date. Some documents have been produced for local areas and include support phone numbers; these may only be relevant if you are living in that area, but other information contained in the documents may still be helpful.

<b>General communication tools information:</b>		
<b>Makaton</b> is a unique language programme that uses symbols, signs and speech to enable people to communicate. It supports the development of essential communication skills such as attention and listening, comprehension, memory, recall and organisation of language and expression.		➔ <a href="#">About Makaton Makaton</a>
<b>Social Stories</b> are short descriptions of a particular situation, event or activity, which include specific information about what to expect in that situation and why.		➔ <a href="#">Social stories</a>
<b>Talking Mats</b> use unique, specially designed picture communication symbols for all ages and communication abilities.		➔ <a href="#">Talking Mats</a>

<p>The <b>Picture Exchange Communication System (PECS)</b> enables people to use cards with pictures, symbols, words or photographs to make requests or comments and answer questions. It reduces the need to rely on speech.</p>		<p>➔ <a href="#">PECS</a></p>
<p><b>Widgit Symbols</b> are images which are used to support text, making the meaning clearer and easier to understand.</p>		<p>➔ <a href="#">Widgit Symbols</a></p>
<p><b>Now and next boards</b> can help people to see what the present task is and what is to follow. It can be used as a reward chart, for example: if the present task is completed the next option can be a treat. These can be made to suit the individual using symbols or photos (similar to PECS).</p>		
<p><b>Objects of Reference</b> are objects that are systematically and consistently used with a person to represent people, places, objects and activities. They are used alongside the spoken word. COVID-19-related objects of reference can include the persons face covering or a hand sanitiser bottle. Allow the person to feel the object as you use the spoken word for the item, followed by using it.</p>		
<p><b>Communication books</b> with pictures and photos; these can be completely personalised with photographs of the individual carrying out different activities such as washing hands, wearing a face covering, enjoying different activities, etc.</p>		
<p><b>Easy read</b> is an accessible format of providing information designed for people with a learning disability. The easy read format is easy to understand because it uses simple, jargon free language, shorter sentences and supporting images.</p>		

## Well-being and activities

People are experiencing longer periods of time at home due to COVID-19 and usual services and activities may be cancelled. This can have an impact on individuals' mental health and well-being.
