

Local networks and community of practice about positive behavioural support (PBS), people with intellectual disabilities, learning disabilities and autistic people

- Having local networks can help you share what's worked well and learn from others, to improve best practice.
- These networks have different focuses including supporting autistic people, people with learning disabilities/intellectual disabilities, and/or the use of PBS – or a combination of the above.
- If you want to join a local network, use this list to find their details and get in touch.
- Each network is different so make sure you ask how they're run and who can join.

Name	Nature of group	Contact
