

8. Awareness raising in your organisation

Alongside the support that you can give your workforce there are a number of other sources of help and assistance that employees can access themselves. There are several national organisations which exist to provide support for carers. Many of these can 'signpost' carers to support which is available locally.

Details of these are listed on the enclosed poster which you could display on your staff notice board etc. There is also space for you to write details of who your staff can contact within your organisation for support.
