

“Different Conversations, Better Outcomes”

Learning Outcomes	<i>Evidenced through</i>
To comprehend ideas behind consumerist and empowerment models of Social care	<i>By the end of the programme candidates will demonstrate an understanding of the current consumerist model of Adult Social Care and recognise its limitations and lack of viability in the current economic climate</i>
To understand how systematic practice can be used to develop staff to focus on solutions not services	<i>By the end of the programme candidates will demonstrate the application of an outcomes focussed approach through viable and sustainable solutions for individuals</i>
To build on current knowledge of community resources appropriate to social care needs	<i>By the end of the programme candidates will have worked in collaboration with members of the Community Action Team to develop a project demonstrating increased use of community capacity</i>
To understand for self and others the requirements of the regulator and be able to demonstrate capability at the appropriate level of the Professional Capability Framework	<i>By the end of the programme candidates will be expected to provide evidence of on-going CPD illustrating professional accountability and autonomy. The Portfolio will include written reflections on their learning, examples of how they have met the identified learning outcomes and a direct observation of their practice.</i>
